

ABSTRACT

Fariska Dyanis Anitasari

The Relationship between locus of control and obedience with creativity at Indonesian Air Force Pilot (Monty P. Satiadarma, MS/AT, MCP/MFCC., and Lianawati, Psi.), Bachelor Program in Psychology, Tarumanagara University (57+P1- 4).

The purpose of this research is to find out the relationship between locus of control and obedience with creativity at Indonesian Air Force Pilot. This research uses all of the population which is 296 people. The data is taken using questionnaire and processed with SPSS program for windows ver. 13. The processing technique is using Pearson Product Moment because the data have normal distribution. The result of this research shows $r_{xy} = 0,602$ with $p < 0.01$ between internal locus of control and creativity; $r_{xy} = -0,181$ with $p < 0.01$ between external locus of control and creativity; $r_{xy} = -0,341$ with $p < 0.05$ between obedience and creativity. The conclusion of this research is there is a relationship, whether positive or negative between locus of control and obedience with creativity.
